

Foundation
for Polish Science

PUBLIC BENEFIT ORGANIZATION

Warsaw, 9 February 2011

PZ-070-1013/2011

**Declaration of support
for the European Charter for Researchers
and the Code of Conduct for the Recruitment of Researchers**

The Foundation for Polish Science (FNP) welcomes the initiative of the European Commission concerning the European Charter for Researchers and the Code of Conduct for the Recruitment of Researchers. FNP fully supports the principles expressed in both documents.

Many of those principles and requirements have already been implemented by the Foundation. As the biggest non-governmental research funding organization in Poland, FNP recognizes the rules of the Charter and the Code as its responsibility toward scientific community. It also commits itself to promotion of the essentials of the Charter and the Code among its recipients and – more broadly - in the society.

We believe that dissemination and implementation of the principles of the Charter and the Code serves the best interests of Polish scientists and the progress of science in Poland.
