Julia Rymuza

Lista Publikacji

1. Rymuza, J., Kober, P., Rusetska, N., Mossakowska, B. J., Maksymowicz, M., Nyc, A., ... & Bujko, M. (2022). Transcriptomic classification of pituitary neuroendocrine tumors causing acromegaly. Cells, 11(23), 3846.

2. Rymuza, J., Sun, Y., Zheng, G., LeRoy, N. J., Murach, M., Phan, N., ... & Sheffield, N. C. (2024). Methods for constructing and evaluating consensus genomic interval sets. Nucleic Acids Research, 52(17), 10119-10131.

3. Rymuza, J., Zhang, Q., & Bujko, M. (2025). PIT-1/SF-1-positive pituitary tumors in patients with acromegaly: transcriptomic perspective. Acta Neuropathologica Communications, 13(1), 174.

4. Kober, P., Rymuza, J., Baluszek, S., Maksymowicz, M., Nyc, A., Mossakowska, B. J., ... & Bujko, M. (2024). DNA methylation pattern in somatotroph pituitary neuroendocrine tumors. Neuroendocrinology, 114(1), 51-63.

5. Rymuza, J., Kober, P., Maksymowicz, M., Nyc, A., Mossakowska, B. J., Woroniecka, R., ... & Bujko, M. (2024). High level of aneuploidy and recurrent loss of chromosome 11 as relevant features of somatotroph pituitary tumors. Journal of translational medicine, 22(1), 994.
