Aleksandra Zasada

Lista Publikacji

1. Zasada, A., Lichosyt, D. (2025). Regioselective hydrocyanation of internal alkynes enabled by a Transition-Metal-Free Dual-Catalytic system. Angewandte Chemie International Edition, 64, e202500940.

2. Zasada, A., Lichosyt, D. (2025). Catalytic Hydrocyanation of Alkynes with HCN Surrogates: Advances and Challenges. ChemCatChem, e01023.

3. Zasada, A., Brześkiewicz, J., Antoniak, D., Bechcicka, M., Loska, R., Mąkosza, M. (2022). Synthesis of quinoxaline derivatives via aromatic nucleophilic substitution of hydrogen. Organic & Biomolecular Chemistry, 21(5), s. 994.

4. Patrzałek, M., Zasada, A., Kajetanowicz, A., Grela, K. (2021). Tandem Olefin Metathesis/alpha-Ketohydroxylation Revisited. Catalysts, 11(6), s. 719.

5. Zasada A. Mironiuk-Puchalska E., Koszytkowska-Stawińska M. (2017). Synthesis of Tegafur by the Alkylation of 5-Fluorouracil under the Lewis Acid and Metal Salt-Free Conditions. Organic Process Research & Development, 21(6), s. 885.
